

Do you have a new baby, or are you expecting?

We can help you track your baby's development

Babies:

- Age: 0 - 6 months
- Have an **older sibling** who either:
 - is typically developing
 - has an autism spectrum disorder
 - has a developmental delay or learning disability

Parents:

- Come to the CSLU in Beaverton twice a month for 6 months.
- Play with their baby as they would at home.
- Follow-up visits until age 3.

Get:

- Evaluations of their baby.
- Free consultation with a Psychologist.
- Compensation for time.

CALL: 503-748-1602
